

WASTEWATER AND FIELD SAMPLING SERVICES

EMT Provides Specialized Wastewater Services

EMT has been at the forefront of providing expert wastewater sampling and flow measurement since the company was founded in 1984. EMT provides:

- User Charge sampling & analysis (RD-920 and RD-925)
- Continued Compliance sampling & analysis (RD-115)
- Assistance with Metropolitan Water Reclamation District of Greater Chicago (MWRD) form completion (RD-920, RD-925, RD-115, RD-114, RD-112, RD-118)
- Specialized User Charge liability reduction programs designed for clients utilizing direct discharge measurement and flow distribution. MWRD User Charge liability forecasting provided for no additional charge.
- Primary and Secondary Flow Measurement Devices installed and maintained
- Sampling, Analysis and Pick-ups available 7 days a week, 365 days a year
- Confined-Space Entry procedures follow all applicable safety regulations
- Flow meter calibrations and documentation
- Customized flow studies and dye tracing
- Newest technologies (e.g. solar powered continuous flow measurement, etc.)
- Knowledgeable staff provide interpretation and guidance for regional environmental regulations.
